

When registering a newly acquired vehicle, the 1st named person on the registration must do one of the following, either come to the Town Clerk's office or fill out a form allowing someone else to register the vehicle for him/her AND must state on the form what the vehicle is, the vin and what type of plate the owner wants to purchase. I have the form at my office and will gladly email or fax it, if needed.

Anytime a currently registered vehicle needs a plate change, please contact my office for directions on what procedure applies to changing the plates.
